

PATIENT JOURNEY

BOTOX TREATMENT

GENDER

Female

AGE

48 years old

OPERATION DURATION

30 minutes

CLINIC

Amwaj Polyclinic

JOURNEY

The patient was complaining about her tired look with many wrinkles showing during her facial expressions. She was also concerned about her eyebrows positioning.

TREATMENT

The patient underwent a Botox treatment for the forehead.

RECOVERY & FOLLOW-UP

The downtime was of about 2 hours for a minimal swelling. The result started showing in 3-4 days and it was evident in 10 days when the picture was taken.

RESULTS

The pictures above are 10 days post the treatment. The patient noticed the difference and loved the results.

“From consultation to the treatment it was nothing short of excellent. Dr. Vigo is amazing, professional, gentle and utterly fabulous results. I have my confidence back. Thank you”
