

# PATIENT JOURNEY

## TUMMY TUCK DUBAI

### GENDER

Female

### AGE

45 years old

### OPERATION DURATION

Two hours and half.

### CLINIC

Amwaj Polyclinic

### JOURNEY

After 2 pregnancies, the lady decided to solve the issue of the skin excess she had together with a tightening of the muscle which were separated due to the pregnancies. It is a common situation for many women and there is not other solution rather than a surgical procedure to fix it.

### TREATMENT

The patient underwent a Tummy Tuck procedure with Muscle Repair.

### RECOVERY & FOLLOW-UP

The patient was able to resume light activities after few weeks of the procedure. She experienced some swelling for brief period but she was recovered faster than expected. She had 2 drains that were removed after 4 days from the surgery with minor discomfort.

### RESULTS

The picture above is post 3 months of the surgery. The patient loved the results and she was exercising and doing yoga frequently which was one of the factors to maintain the results.

*“I am truly thankful for so many aspects of my experience with you and your entire staff that I really do not know where to begin. So I will start with the part that I am most excited about... my results!”*
