30 minutes

POST OP CONSULTATIONS

At 1 week

CLINIC

Amwaj Polyclinic

JOURNEY

The patient wanted to have a lifted and reshaped buttocks non surgically. She was specifically aiming to have a better reshaping of the lateral part of the hips with filler.

TREATMENT

The patient underwent HYAcorp Filler Injection.

HYAcorp is the revolutionary body shaping product made from cross-linked hyaluronic acid indicated for volume restoration and shaping of breasts, calves, and buttocks. HYAcorp is minimally invasive, minimal downtime, HA treatment making it the first generation of body aesthetics. HYAcorp can also even out discrepancies in the skin surface, for example, those caused by liposuction. HYAcorp can also be used to improve the appearance of thick, disfiguring surgical scars. It is intended to last for 12-24 months.

RESULTS

As you can see in the pictures, there is a noticeable difference in the shape of the buttocks after injecting the filler, especially in the external curvature of the hip.

“I would definitely recommend Dr. Vigo to anyone who is really serious about natural looking results.”
