PLASTIC SURGERY

FILLER TO RESHAPE,
DEFINE, HIDE BUMPS &
STRAIGHTEN THE NOSE

Dermal filler is a gel which when injected into the nose can be used to reshape, define, hide bumps, and straighten the nose.

Dermal filler nose is an advanced dermal filler treatment and is considered a higher risk area than dermal filler elsewhere on the face, Dr. Matteo Vigo is highly experienced in performing this treatment.

He most commonly performs this treatment on patients who:

- Want a subtle correction to the nose
- Do not want to undergo surgery
- Prefer instant results with little downtime
- Have a flat nose bridge that requires building up
- Have a 'hooked' nose
- Have a small bump they would like to correct
- Have a small nose requires building up
- Want a more defined nose with a raised nasal tip

The non-surgical nose job became a popular treatment for different age groups because it is an excellent choice for those who don't want to have surgery. Major advantages of Nose Reshaping Fillers are that you can return to work the next day and resume your daily routine. No more hospital stay, leave of absence or long recovery period.

Let Dr. Matteo Vigo help you to be happy with what you see in the mirror by having a super effective, walk-in walk-out procedure, with no complications and scalpels.

The non-surgical rhinoplasty or non-surgical nose job is a highly advanced procedure. I will use premium hyaluronic acid nose fillers to shape your nose and balance your profile. As such this treatment is completely tailored to your individual face shape and aesthetic goals.

NON SURGICAL RHINOPLASTY WITH NOSE FILLERS

The non-surgical rhinoplasty is an advanced corrective procedure. Using hyaluronic acid dermal fillers, the nose can be reshaped with just a small number of injections in a short period of time with little to no downtime involved. As such, the non-surgical rhinoplasty has become extremely popular with both men and women alike. This treatment is performed using premium hyaluronic acid to reshape the nose and provide harmony to the face.

Dr. Matteo Vigo uses nose fillers to alter the definition, projection, profile, and shape of the nose. As such, non-surgical rhinoplasty is best for straightening, lengthening, smoothing out bumps or dents and improving asymmetries in the nose. The key benefits of my personalised non-surgical rhinoplasty include:

- Safe & effective treatment using premium dermal fillers
- Fully bespoke non-surgical rhinoplasty nose reshaping treatment
- Profile balancing by treating the chin area if needed
- All treatments performed by an experienced aesthetic doctor
- Premium hyaluronic acid dermal fillers
- Natural looking results
- Dedicated aftercare and follow-up

WHAT ARE THE BENEFITS OF THIS TREATMENT OVER TRADITIONAL RHINOPLASTY?

Aesthetic Medicine now has more and more options for performing non-surgical procedures. Being non-surgical it means less risk, less downtime, fewer side effects and yet with very similar results. The new non-surgical nose job using dermal fillers means I can do so much in minutes and with no pain. Surgical rhinoplasty, however, takes a month or longer to recover from and results are not always perfect. I was one of the first doctors a few years ago who developed the technique of the non-surgical procedure now done by doctors all over the UAE.

WHAT DOES THE NON SURGICAL RHINOPLASTY PROCEDURE INVOLVE?

All of Dr. Matteo Vigo's non-surgical rhinoplasties start with a detailed consultation. This allows me to design a bespoke treatment based on your individual needs and aesthetic goals. The treatment starts with a thorough cleansing of the skin then applying a numbing cream for

your comfort. I will then inject the nose filler using a needle. I may also inject the chin area to help balance the profile of yourself as part of the procedure.

WHO IS BEST SUITED FOR A NON SURGICAL RHINOPLASTY?

Non-surgical rhinoplasty is a quick and non-invasive method to shape the appearance of the nose. This treatment uses hyaluronic acid dermal fillers which are temporary and slowly broken down by your body over time. Dr. Matteo Vigo can deliver excellent results using nose fillers for:

- Mildly crooked nose to improve symmetry
- Small nose that needs building up
- Hook-shaped nose that requires straightening
- Mild or moderate bump on the bridge of the nose that needs smoothing
- A mild to moderate drooping of nasal tip that
- Noses that would like more height, definition, and a nose tip

HOW SAFE IS A NON-SURGICAL NOSE JOB?

Juvéderm and Restylane Perlane, which are usually used in this procedure, are biocompatible and biodegradable products which means that it is not harmful to the body and is broken down and removed from the body naturally. These hyaluronic acid nose fillers come in the form of a sterile gel produced in the laboratory.

WHEN WILL I SEE RESULTS AND HOW LONG DO THEY LAST FOR?

You will be able to see the result immediately and the full effect at 1-2 weeks. The results can last for up to 18-24 months. This is dependent on which of our hyaluronic acid dermal fillers you choose and how quickly your body breaks it down. I will help you decide which dermal filler is best for your needs.

DR MATTEO
VIGO
PLASTIC SURGERY

A BRIEF NOTE FROM
DR MATTEO VIGO

I decided to become a doctor at early age but I was not aware of the world of Plastic Surgery. Once I have discovered it I fell in love with the whole concept behind and how this field of Medicine can be helpful for many people.

I passionately believe that, in order to improve the physical aspect of a patient, the plastic surgeon needs to combine the principles of art and science, adopting a global approach to understanding the individual desires.

Plastic Surgery is a truly fascinating, dynamic, constantly evolving field of medicine and I believe that the role of a Cosmetic Surgeon is unique and highly privileged.

My main goal is to understand the needs of a patient and try to transform their desires into reality. The role of a plastic surgeon is not only merely surgical but also supportive in the decision process of the best treatment to help patients finding themselves and their wellbeing.

All these steps are taken into consideration once a person walks in my office and the service I am offering them is always at the top.

I am combining experience, quality and professionalism to evaluate each single case and offer the best solution for my patients.

“Because you deserve the best” is my motto and I want always to put the patient at the centre of what I am doing.

You have to feel pampered, understood, listened, loved once in my office and the feedback of this feelings from my patient is my best satisfaction.
