**PROFILO SKIN  
REMODELLING  
FOR FINE LINES &  
WRINKLES**

Prophilo works by boosting your natural collagen and elastin production, the cells responsible for giving skin its firm, youthful appearance. The unique injectable HA gel has the capability to stimulate four different kinds of collagen and elastin production, putting its performance above any other filler.

The HA solution is injected at five key points on either side of the face, restoring hydration - plumping out the skin - while also stimulating long-term collagen and elastin production.

Prophilo is ideal for combating several signs of aging, including:

- fine vertical lines around the mouth, also known as 'smoker's lines'
- wrinkles under and around the eye
- loose skin around the jawline and under the chin
- thin and/or sagging neck skin
- cheek wrinkles and hollow cheeks

Prophilo is highly recommended for mature patients looking to improve their skin's quality and appearance, as well as younger patients seeking an effective preventative measure against first signs of aging.

Compared with Mesotherapy or Skin boosters, the key benefits of Prophilo are:

- quicker treatments with less injections and reduced discomfort
- less chance of bruising

- much longer-lasting results which improve over time
- fewer treatment sessions required
- significantly improves fine lines, wrinkles, skin laxity & hydration

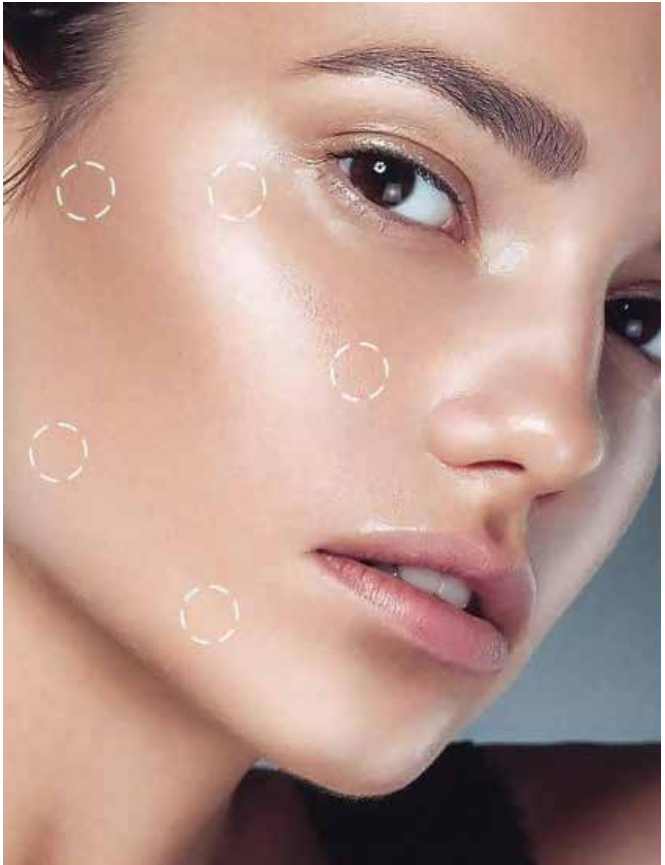

### **WHAT IS PROFHILO?**

- Profhilo is not a dermal filler, but a new product altogether
- Profhilo is composed of highly purified hyaluronic acid, free from impurities and additives (offering greater safety and reduced side effects).
- Using patented thermal technology IBSA have produced this stable hybrid of high and low molecular weight hyaluronic acid at an incredibly high concentration of 32mg/ml, specifically engineered for 'skin bioremodelling'.
- Profhilo is indicated for the treatment of skin laxity of the face, neck and body.

### **HOW DOES PROFHILO WORK?**

Profhilo has a dual action on the skin:

- Hydrating and stimulating collagen and elastin production to renew your skin from within.
- Dermal scaffold action to support the skin
- Effectively stimulates production of both your natural collagen and elastin

- Profhilo has a proven safety record and results. It was awarded Product Innovation of the Year at the 2016 Aesthetics Awards in the UK and received the international Anti-Ageing and Beauty Trophy for 'Best Skin Enhancement Device' at the Aesthetic and Anti-Ageing Medicine European Congress in Paris October 2015

#### **WHAT RESULTS CAN I EXPECT?**

Results following Profhilo are almost immediately visible, natural-looking yet noticeable rejuvenation of all treated areas; including brighter fresher-looking skin and even improvements to the under eye area.

Profhilo works to remodel your skin:

- stimulates production of all four types of collagen and elastin in the skin (the only product that can do this!)
- improves skin tone, texture, hydration and radiance
- increases firmness and elasticity – for healthier, softer skin with more 'bounce'
- increases facial fullness, with a tightening and lifting effect

Profhilo delivers results quickly. After a recommended course (two Profhilo appointments, four weeks apart) skin looks deeply hydrated, facial skin appears firmer, and fine lines diminished. Skin tone also looks noticeably smoother and fuller. In mature patients, even deeper wrinkles and facial folds – such as nasolabial lines, the lines that run from the side of the nose to the mouth – are improved, while overall skin texture appears fresher, firmer and more radiant.

PLASTIC SURGERY

A BRIEF NOTE FROM  
DR MATTEO VIGO

I decided to become a doctor at early age but I was not aware of the world of Plastic Surgery. Once I have discovered it I fell in love with the whole concept behind and how this field of Medicine can be helpful for many people.

I passionately believe that, in order to improve the physical aspect of a patient, the plastic surgeon needs to combine the principles of art and science, adopting a global approach to understanding the individual desires.

Plastic Surgery is a truly fascinating, dynamic, constantly evolving field of medicine and I believe that the role of a Cosmetic Surgeon is unique and highly privileged.

My main goal is to understand the needs of a patient and try to transform their desires into reality. The role of a plastic surgeon is not only merely surgical but also supportive in the decision process of the best treatment to help patients finding themselves and their wellbeing.

All these steps are taken into consideration once a person walks in my office and the service I am offering them is always at the top.

I am combining experience, quality and professionalism to evaluate each single case and offer the best solution for my patients.

“Because you deserve the best” is my motto and I want always to put the patient at the centre of what I am doing.

You have to feel pampered, understood, listened, loved once in my office and the feedback of this feelings from my patient is my best satisfaction.
