BUTTOCK FILLER:
AN EASIER WAY TO
ACHIEVE THE BUTTOCK
SHAPE YOU WANT

A ground-breaking treatment to help reshape, lift and enhance your bottom. Buttock Filler Treatment is a popular non-surgical procedure designed to add volume and shape to the buttocks, helping you achieve a more voluptuous and contoured derrière. Buttock Filler Treatment, also known as buttock augmentation with dermal fillers, is a non-surgical procedure that involves the injection of hyaluronic acid-based fillers into the buttocks.

It is designed to enhance the size, shape, and projection of the buttocks, providing a more curvaceous and balanced appearance.

HOW DOES BUM FILLER TREATMENT WORK?

During the Buttock Filler Treatment, Dr. Vigo strategically injects dermal fillers into specific areas of the buttocks to add volume and improve contour. The hyaluronic acid-based fillers work by attracting and retaining moisture, adding fullness and enhancing the shape of the treated area. This results in a lifted, rounder, and more shapely bum.

BENEFITS OF BUM FILLER TREATMENT:

Non-surgical alternative:

Buttock Filler Treatment offers a non-invasive option for those seeking to enhance the appearance of their buttocks without undergoing surgery.

Natural-looking results:

The dermal fillers used in the treatment provide a natural-looking enhancement, achieving a more balanced and proportionate buttock contour.

Customizable treatment:

Dr. Vigo will tailor the treatment to your specific goals, addressing asymmetry, volume loss, or lack of definition to create the desired shape.

Minimal downtime:

Compared to surgical procedures, Buttock Filler Treatment involves minimal downtime, allowing you to resume your daily activities shortly after the procedure.

IS BUTTOCK FILLER TREATMENT RIGHT FOR YOU?

Buttock Filler Treatment is suitable for individuals who desire an enhanced and more shapely buttock appearance without undergoing surgery. During a consultation Dr. Vigo will assess your needs, discuss your goals, and determine if Buttock Filler Treatment is the appropriate option for you.

THE BUTTOCK FILLER TREATMENT PROCEDURE:

Consultation:

Your Buttock Filler Treatment journey begins with a consultation, where Dr. Vigo will discuss your desired outcome and evaluate your buttock area. He will create a personalized treatment plan based on your unique goals and anatomy.

Treatment:

During the procedure, Dr. Vigo will inject the hyaluronic acid-based fillers into specific areas of the buttocks using fine needles. The treatment is performed with precision to achieve the desired shape and volume.

Aftercare:

Following the treatment, you may experience some temporary swelling, redness, or tenderness in the treated area. Dr. Vigo will provide detailed aftercare instructions to ensure optimal results and a smooth recovery.

RECOVERY AND AFTERCARE:

Dr. Vigo will be available to address any concerns or questions you may have during your recovery period. It's important to note that individual recovery experiences may vary, but most patients are able to resume their normal activities shortly after the procedure. You may notice immediate enhancement in the treated area, but the final results will become more apparent as any initial swelling subsides.

A BRIEF NOTE FROM
DR. MATTEO VIGO

I decided to become a doctor at early age but I was not aware of the world of Plastic Surgery. Once I have discovered it I fell in love with the whole concept behind and how this field of Medicine can be helpful for many people.

I passionately believe that, in order to improve the physical aspect of a patient, the plastic surgeon needs to combine the principles of art and science, adopting a global approach to understanding the individual desires.

Plastic Surgery is a truly fascinating, dynamic, constantly evolving field of medicine and I believe that the role of a Cosmetic Surgeon is unique and highly privileged.

My main goal is to understand the needs of a patient and try to transform their desires into reality. The role of a plastic surgeon is not only merely surgical but also supportive in the decision process of the best treatment to help patients finding themselves and their wellbeing.

All these steps are taken into consideration once a person walks in my office and the service I am offering them is always at the top.

I am combining experience, quality and professionalism to evaluate each single case and offer the best solution for my patients.

“Because you deserve the best” is my motto and I want always to put the patient at the centre of what I am doing.

You have to feel pampered, understood, listened, loved once in my office and the feedback of this feelings from my patient is my best satisfaction.
