

THE FUTURE OF BREAST
AUGMENTATION:
MOTIVA ERGONOMIX²®
(ERGO 2)

The Future of Breast Augmentation: Motiva Ergonomix ²® (Ergo 2) with JOY [™]

For many women, breast augmentation is a personal journey toward femininity, confidence, and body acceptance rather than just a cosmetic treatment. Nowadays, patients anticipate more than just size improvement due to developments in implant design and surgical methods. They desire safe experiences, the ability to live easily, and results that seem natural. Motiva Ergonomix ²® (Ergo 2) with JOY [™] is becoming a popular option for ladies in Dubai who want breast augmentation since it provides precisely that.

Breast implants of the next generation are now available.

Not all breast implants are the same as Motiva Ergonomix ²®. Designed to replicate the behavior, texture, and mobility of natural breast tissue, this implant is clever and flexible. Older implants just cannot provide the natural contour and soft sensation that the implant provides while you sit, stand, walk, or lie down. Comfort and confidence in daily life are more important than appearances.

During and after surgery, the TrueMonobloc+® design guarantees flexibility and durability, while the SilkSurface® technology enhances biocompatibility and lowers the risk of problems. From improved visual results to long-term safety, every element has been designed to improve the patient experience.

What is JOY™ and why does it matter?

Motiva's JOY™ initiative elevates the patient experience. It's an expensive product that comes with:

- **Qid® Technology:** An implant's tiny, biocompatible RFID chip enables external verification of implant details by physicians without the need for extra scans or procedures.
- **An extended 5-year warranty:** that offers comfort for ongoing maintenance and assistance.
- **The Woman's Choice Initiative®:** Exclusive to Motiva, this program assists women who decide to reverse their augmentation for private or health-related reasons.

The MiniScar® Technique, which is used by licensed surgeons, enables smaller incisions, less trauma, and quicker healing. Offering women complete transparency, long-term support, and cutting-edge safety measures that meet contemporary standards is the goal of the JOY™ system, which goes beyond the implant.

Why do patients trust Dr. Matteo Vigo in Dubai?

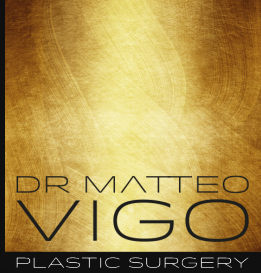

Experience and trust are just as important in selecting a plastic surgeon as the technology. In Dubai and the surrounding area, Dr. Matteo Vigo is well-known for his plastic and reconstructive surgical practices. His reputation is based on more than simply his competence; it also stems from his capacity to listen, counsel, and assist patients in reaching their best decisions.

Throughout the years, Dr. Vigo has worked with ladies from a variety of backgrounds, each with their own unique story, motivations, and ideal of beauty. He stands out for taking the time to get to know his patients. There are no universally applicable solutions in his consultations. All of the recommendations are based on what is most natural, safe, and compatible with your lifestyle.

A customized experience that goes beyond a technique

Breast augmentation is not a one-day procedure; it's a journey. From the first consultation to the care following surgery, Dr. Vigo makes sure every patient is well-informed and supported. Safe, proportionate, and natural-looking results are the major goals, regardless of whether you're looking for mild enhancement or more visible volume.

A BRIEF NOTE FROM DR MATTEO VIGO

I decided to become a doctor at early age but I was not aware of the world of Plastic Surgery. Once I have discovered it I fell in love with the whole concept behind and how this field of Medicine can be helpful for many people.

I passionately believe that, in order to improve the physical aspect of a patient, the plastic surgeon needs to combine the principles of art and science, adopting a global approach to understanding the individual desires.

Plastic Surgery is a truly fascinating, dynamic, constantly evolving field of medicine and I believe that the role of a Cosmetic Surgeon is unique and highly privileged.

My main goal is to understand the needs of a patient and try to transform their desires into reality. The role of a plastic surgeon is not only merely surgical but also supportive in the decision process of the best treatment to help patients finding themselves and their wellbeing.

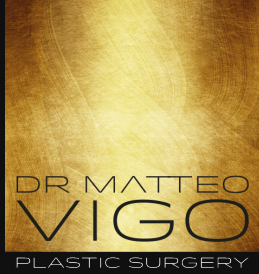

All these steps are taken into consideration once a person walks in my office and the service I am offering them is always at the top.

I am combining experience, quality and professionalism to evaluate each single case and offer the best solution for my patients.

"Because you deserve the best" is my motto and I want always to put the patient at the centre of what I am doing.

You have to feel pampered, understood, listened, loved once in my office and the feedback of this feelings from my patient is my best satisfaction.
